Lisbon, February 8. N. S.

THE *Joseph and Thomas*, a Transport Ship, *Thomas Rogers* Commander, of about 300 Tuns, 10 Guns, and 20 Men, came in here the 5th Instant. On the 13th of the last Month, in her return hither from *Gibraltar*, she was separated by bad Weather from her Convoy: The day following a *Biscay* Privateer, of 22 Guns and 160 Men, came up with her early in the Morning, with whom she fought most part of the day, being within Pistol-shot of one another; the Privateer boarded her thrice during the Fight, but met with so brave a Resistance, that he was obliged at last to sheer off, and leave her, having lost a great many Men. The Transport Ship is much disabled, and the Commander, with divers of his Men, were wounded, but (as it is hoped) none of them mortally.

Vienna, Febr. 28. On the 26th Instant General *Herberstein* arrived here from *Hungary*, in order to take Possession of his new Employment as Vice-President of the Council of War. The same day we received Advice from General *Heister*, That 5000 Malecontents under the Command of Count *Caroli*, were come over the Ice on this side the *Danube*, a little below *Raab*, and were entered into the District of *Rabbau*; since which time the River is thaw'd, so that they cannot return, nor General *Heister* send a Detachment in pursuit of them. He is come back with the Troops under his Command to his former Quarters about *Posing*. The Emperor's Ministers continue their Conferences to consult upon the Means of putting an end to those Troubles by the way of an Accommodation. We hear that the Electress of *Bavaria* has left *Munich*, and is passed by *Salzbourg* in order to have an Interview with the Queen Dowager of *Poland* her Mother, who is coming from *Rome* with a Design to meet her at *Verona* or at *Gratz*.

Copenhagen, March 7. Orders were sent from this Court the 3d Instant for the *Danish* Forces which are now in *Bavaria* to march into *Italy* The King intends to go from hence this Spring to visit his County of *Oldenbourg*, where his Majesty has not been since his Succession to the Crown, and some other Parts of his Dominions. Monsieur *Plessen* arrived here the 6th Instant from *Hambourg*.

Berlin, March 8. Monsieur *Rosenhan*, Ambassador from the King of *Sweden*, had on the 5th Instant his private Audiences of the King of *Prussia* and the Prince Royal his Son. Monsieur *Ilten* left this Place yesterday, in order to his return to *Hanover*. The Great Marshal of this Court goes from hence to morrow with a numerous Retinue of Officers and other Gentlemen towards the Frontiers to receive the late Queen's Body, and attend it hither. A very magnificent *Mausoleum* is preparing in the old Chapel in the Castle, where the Body is to be deposited until the Ceremony of its Interment is performed, which, as is said, will not be before *September* next. The Marquis *de Prie*, Envoy from the Duke of *Savoy*, is lately arrived here from *Holland*. All Matters being fully adjusted about the March of the *Prussian* Forces which are to be sent into *Italy* to his Royal Highness's Assistance, Orders have been given for those Forces which are to supply their places to march from *Prussia* with all Expedition. Letters from *Silesia* say, That some *Saxon* Horse were drawing together near *Plecz* and *Teschen* on the Frontiers of *Moravia*, in order, as is supposed, to serve as a Guard to the King of *Poland* in his return from *Dresden* to *Cracow*. The King of *Sweden* went lately from *Rawitz* towards *Graudentz*, but is returned to his former Quarters. We hear that an Army of 50000 *Muscovites* is advancing towards *Poland*; And that the Diet of *Rosseinen* in *Samogitia*, and other particular Diets of several Palatinates in *Poland*, have declared their Resolution to stand by their King *Augustus*.

Hanover, March 10. The late Queen of *Prussia*'s Body was removed from hence yesterday, in order to be carried to *Berlin*; which was done with great Solemnity. The whole Convoy is conducted by our Elector's Great Marshal: When he comes to the Frontiers of the Duke of *Zell*'s Country, he is to deliver it into the Care of the Great Marshal to that Duke, who will attend it through his Highness's Territories: And upon the Borders of the King of *Prussia*'s Dominions, the Great Marshal and other Officers of his Majesty's Court are to receive and conduct it with great State to *Berlin*. The Princess *Sophia* has been indisposed, but is at present much better.

The Men of War and Transport Ships, which are designed to be sent from hence with Forces and other Supplies to *Portugal*, will be ready to sail very speedily, whereof publick Notice has been given to the Merchants, That such of them as have any Ships bound thither, may take the Opportunity of sending them with this Convoy. All things continue very quiet on the *Moselle*, as well as upon our own Frontiers. We hear, That Prince *Lewis* of *Baden* has appointed the Rendezvous of those Forces of which the Imperial Army under his Command is to consist to be at Neckar-Ulm by the 10th of next Month. According to our Advices from *France*, both *Gibraltar* and *Verue* still made a vigorous Defence. Some Letters from *Paris* add, That there was a new Insurrection in the Province of *Languedoc*, which had obliged the *French* Court to send a considerable Body of Forces that way; and that the Marshal *de Montrevel* was ordered to repair thither with all possible Diligence.
